Extra long burn time

Designed for easy filling

Double safety burner

Extinguishing tool included

No spillage even when turned upside down

High temperature safety glass

---

**Tempered safety glass:** Provides more safety. The glass can resist temperatures up to 300 C and sudden temperature drops (e.g. cold water). In the unlikely case that it falls, the glass will crumble (like car windows). The corners of the glass are rounded for extra safety.

---

**Designed for easy filling:** The burner is designed with the mindset for ease of use, filling the burner with fuel is easy. Moreover, it has most easiest way of filling in the whole market.

---

**XL burning time:** The highly efficient burning of the fuel results in extra burning time. With its burning time of ||BurningTime|| minutes, this Qlima Deco Fire has one of the longest burning times in the market when compared to similar models.

---

**Qlima fuel safety:** Absorbs the ethanol. Spillage of the fuel is impossible, even when the burner is upside down.

---

**Double safety burner:** For more safety and prevention of spilling, the burner is equipped with an extra fuel chamber that captures excess fuel when filling.

---

**Qlima absorber:** Enhances the fire time. Compared to non-Qlima absorber, the burning time is 20-30% longer. The flame also burns more evenly.

---

**Bio ethanol:** Bio ethanol fire creates a warm and good atmosphere.

---

**Extinguishing tool:** A matching extinguishing tool is included. The fire can easily be extinguished.

---

**Free standing:** This deco fire is suitable for any patio.

---

**Use:** This product is designed for both indoor and outdoor use.
