Possibility for permanent water drainage: By fitting a flexible water drainage tube a continuous water discharge can be realized. If done correctly, it will prevent the need for emptying the water container.

Hygrostat: The humidity can be regulated via an adjustable hygrostat.

Hygrometer: The unit is equipped with a hygrometer, which indicates the relative humidity in the room.

Removable water container with water level indicator: The water container can easily be removed.

Automatic switch off: When the water container is full, a red LED will light up together with a short acoustical signal. The dehumidifier will automatically switch off.

Defrost function: The unit is equipped with an intelligent defrost system, for use in lower temperatures.

Compressor: The dehumidifier has a reciprocating compressor.

Back-up system and auto re-start: In the event of a power failure, the unit will remember the settings before power failure.

Wheels: For extra convenience the dehumidifier is equipped with castors.
