

Product data sheet

Product category	Dehumidifiers
Brand	Qlima
Model	D 620
Colour	White
EAN code	8713508776064

Technical specifications

Dehumidifying capacity	l/24 h	20
Power consumption	W	340
Power supply	V/Hz/Ph	220 - 240~ / 50/60 / 1
Current (nom.)	A	1,3
Airflow	m³/h	200
For rooms up to	m³	100 - 130
Capacity water tank	l	4
Operating range	°C	35
Included filters	type	Screen / Active carbon / HAF
Sound pressure level 1m	dB(A)	< 39
Fan speeds	positions	2
Control		electronic
Auto restart		Yes
Refrigerant type / GWP / Charge	R/g	R290 / 3 / 68
Dimensions (w x d x h)	mm	346 x 253 x 590
Net. weight	kg	14,0
Compressor type	type	rotary
Protection class		IP24
Warranty	year	2

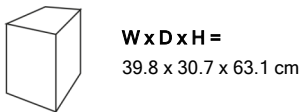

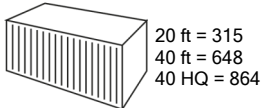

All data is measured in accordance with applicable EU specified standards at the time of production. To be used for indicative purposes only.

Ultra silent mode

Permanent water drain function

Splashwater proof

3 Layer filter

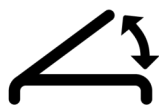

Timer function

Hygrometer

Built-in thermometer

Swing function air outlet

HAF

HAF filter

Very stylish exclusive Qlima design: This dehumidifier is part of an exclusive range of Qlima design dehumidifiers. The glossy white colour together with the colourful blue indication ring presents this model as a revelation in high end aesthetics for household dehumidifiers.

Extremely quiet: In HIGH fan mode: the sound produced by this dehumidifier is so low you will hardly hear it, when using it in a normal living room. This dehumidifier surely is one of the most silent dehumidifiers available in the current market.

Swing function air outlet : The air outlet is positioned on the upper part which is equipped with a movable flap (up / down). In this setup, the air spreads evenly and is particularly useful for drying laundry. The function 'Swing' can also be deactivated.

Hygostat: The humidity can be regulated via an adjustable hygostat.

Hygrometer: The unit is equipped with a hygrometer, which indicates the relative humidity in the room.

Large size, removable water tank: For ease of use, the dehumidifier has an extremely large watertank capacity. The frequency of having to empty the tank is significantly reduced, with this large sized water tank.

Water container cover: The water container is equipped with a cover, to prevent the splashing of water when the container is taken out or is transported to the drain.

Easy to use: The device adapts to the room conditions. It alternates between silent and full power mode to maintain a humidity level of around 50%. When the water tank is full, an acoustic signal sounds and then the device switches off.

Automatic switch off: When the water container is full, a LED light will light up. The dehumidifier will automatically switch off.

Power cord storage: The dehumidifier is provided with an easy to use power cord storage option.

24 hour timer: The unit is equipped with a timer function which can switch off the unit at any hour.

Convenient mobility: The unit is equipped with top handle at the top back of the unit.

Compressor: The dehumidifier has a silent rotary compressor.

Defrost function: The unit is equipped with an intelligent defrost system, for use in lower temperatures.

Full colour box: The unit is delivered complete with auxiliary parts within a full coloured box, displaying the applications and operation information in several languages.
