Permanent water drain
function

Timer function

Stackable: When the appliance is not in use, the top part of the unit can be placed in the collection tray in order to save storage space.

Removable water container with water level indicator: The water container can easily be removed.

Possibility for permanent water drainage: By fitting a flexible water drainage tube a continuous water discharge can be realized. If done correctly, it will prevent the need for emptying the water container.

Full colour box: The unit is delivered complete with auxiliary parts within a full coloured box, displaying the applications and operation information in several languages.

24 hour timer: The unit is equipped with a timer function which can switch off the unit at any hour.

Large size, removable water tank: For ease of use, the dehumidifier has an extremely large watertank capacity. The frequency of having to empty the tank is significantly reduced, with this large sized water tank.

Hygrostat: The humidity can be regulated via an adjustable hygrostat.

Easy to use: The device adapts to the room conditions. It alternates between silent and full power mode to maintain a humidity level of around 50%. When the water tank is full, an acoustic signal sounds and then the device switches off.
