Defrost function

Hygrometer

Economical: This dehumidifier is a dehumidifier and nothing more. Simple and effective. When switched on, the dehumidifier will try to dehumidify the air to the maximum extent within the circumstances it operates in.

Possibility for permanent water drainage: By fitting a flexible water drainage tube a continuous water discharge can be realized. If done correctly, it will prevent the need for emptying the water container.

Simple but effective user interface: 1 LED light to indicate when the machine is connected to the power supply, 1 LED light to indicate "water bucket full" and 1 LED to indicate "Auto defrost".

Automatic switch off: When the water container is full, a LED light will light up. The dehumidifier will automatically switch off.

Defrost function: The unit is equipped with an intelligent defrost system, for use in lower temperatures.

Removable water container with water level indicator: The water container can easily be removed.

Hygostat: The humidity can be regulated via an adjustable hygostat.

Compressor: The dehumidifier has a reciprocating compressor.

Convenience: The unit is equipped with top handle at the back of the unit, for easy lifting and convenient transportation.
