

Product data sheet

Product category	Gas heater
Brand	Qlima
Model	GH 825 C
Colour	Black
EAN code	8713508773261

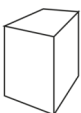

Technical specifications

Heating capacity steps		1300/1600/2500
Heating capacity	kW	2,5
Gas connection		G1/2
Energy efficiency class		A
Consumption (min./max.)	g/h	95 - 182
Autonomy (min./max.)	h	82 - 158
For rooms up to	m ²	20 - 32
	m ³	50 - 80
Gas cylinder capacity (max.)	kg	15
Max. gas bottle dimensions (Ø/h)	mm	330 / 575
Control		mechanical
Dimensions (w x d x h)	mm	420 x 240 x 725
Net. weight	kg	9
Warranty	year	2

All data is measured in accordance with applicable EU specified standards at the time of production. To be used for indicative purposes only.

20 ft = 210
40 ft = 420
40 HQ = 507

W x D x H =
46 x 32 x 75 cm

Gross weight
10 kg

Package content

Gas heater, User manual

Accessories (to order)

Description	EAN code

3 Temperature settings

ODS

Oxygen detection safety system

Tip-over safety switch

Easy to move

Piëzo ignition

Catalytic heating: The catalytic burner produces a combination of approx. 80% convection heat and approx. 20% radiant heat. This ensures immediate and constant sensation of warmth without a visible flame.

Safe heating: The catalytic nature of the heater makes it a safe heater for garages and workshops. It features no naked flame, except for the pilot flame.

Heating settings: The gas heater has 3 heating settings, to adjust the heating capacity to the desired room temperature.

Instant heating: No hours of waiting for the heat to build up, just turn the dial and you have instant radiated heat to warm your hands and feet. At the same time, the gently convection heat will bring a warm glow to the whole room.

Efficient and quiet: The gas heater is efficient and quiet. No blowers or fans are required to distribute the heat.

Design: This gas heater is part of a robust range of Qlima products.

Full colour box: The unit is delivered complete (including auxiliary parts) in a full coloured box, displaying applications and operation information in several languages.

Castors: For easy movement the gas heater is provided with castors.

Flexible: The gas heater is capable of heating any room at any time. All gas heaters are mobile and can be used to provide extra warmth. For example, in draughty hallways, lounges or keeping you warm in a studyroom.

Oxygen depletion sensor (ODS): The gas heater is equipped with oxygen depletion sensors (ODS). These sensors can tell how much oxygen is left in the air. Decrease in oxygen levels will activate the sensor to shut off the gas. This security measure activates long before you would feel the effects of low oxygen levels.

Piezoelectric ignitor: This device takes care that the heater can be ignited easily. No matches or lighters are required to start the heater.

Tip over safety switch: The tip-over switch will automatically shut off the gas heater when the unit is tipping over.
