All data is measured in accordance with applicable EU specified standards at the time of production. To be used for indicative purposes only.

Package content

Portable airconditioner, Remote control, CR2025 battery, Filter, Drainage tube, Hose inlet, Hose outlet, Window slider subassembly, User manual

Accessories (to order)

Description	EAN
	code

Portable airconditioner

WiFi functionality

Remote control

3 Fan speeds

Cooldown function

Eco-friendly refrigerant

Dehumidifier function

Sleep mode

Timer function

Adjustable airflow

Airfilter function

Air conditioning: The unit produces, with relatively high energy, a pleasant and refreshing high capacity cool airflow. Unhealthy particles are captured by the air filters. Performance is optimal when the entering of warm outside air.

Wi-Fi: Powered by Tuya: Smart air conditioning, remotely controlled with Wi-Fi via Tuya App.

Electronic controls: The unit is equipped with electronic controls.

Remote control: This unit can be operated with an easy to handle remote control.

Temperature indication: When the appliance is operating, the room temperature is displayed on the screen. It can vary between 18 $^{\circ}$ C and 35 $^{\circ}$ C. NOTE: The device adapts to the conditions of the room.

Fan speed setting: Select the fan speed: low, high or automatic. The display will show the chosen speed.

Timer: Operating time to be set to 24 hours. The unit switches off auomatically when the set time has run down.

Airflow: Move the air vent direction by adjusting the grill at the front side of the air conditioner and by moving the vertical and horizontal louvers.

Cooldown effect: The unit removes humidity by condensation. The condensate cools the condenser and is removed by the hot air discharge. This will increase the energy efficiency, the so called "cool down" effect.

Dehumidification: The unit can also be used as a dehumidifier only. In that case the exhaust hose is not connected and warm air returns in the room.

Continuous drainage: In use as dehumidifier it is necessary to connect a continuous drainage tube (not inlcuded) to the unit.

Exhaust duct: Hot air and humidity is transported, by an easy to install exhaust duct, outside the room

Full colour box: The unit is delivered complete with auxiliary parts in a stylish full colour box showing application and operation information in mulitple languages.
